

EISCIR-P18/11/11/2022

Dear Parents,

We trust that this email finds you well.

Please be advised of the following important information:

INTERNATIONAL DAY OF TOLERANCE

Tolerance is a *national* and *fundamental* value of the UAE to the world.

Through its initiatives, the Ministry of Tolerance & Coexistence seeks to develop a spirit of mutual respect and peaceful coexistence among residents of the country and reject hatred and violence.

EIS will be celebrating the event on **16.11.2022 (Wednesday)**. Children will imbibe values such as respect, equality, justice, appreciating others through various class activities such as we are one world, we are all different yet similar and voices in action.

WORLD DIABETES DAY

Excel joins the global community in observing **World Diabetes Day** annually on **November 14th**, the day that marks the birthday of Frederick Banting, who laid the groundwork for the discovery of insulin in 1922.

It is a day to raise awareness of how people are living with diabetes today and how to address the prevalent challenge of access to diabetes care.

A special assembly will be conducted to boost the students' knowledge about the disease. There will be in-classroom discussions and activities to encourage the children to educate those around them and support organizations helping people with diabetes in the UAE and the world.

Thanking you for your steadfast support.

Kind regards,

Excel International School
