

Dear Parent,

The school year may be winding down, but it is not the time to be laid back. Students will keep working on essential skills and engage in fun activities the school has prepared for them.

- **Community Helpers/Heroes Day**

EIS celebrates the incredible individuals who contribute to our society, **the community helpers!**

**Junior KG (KG1) Students** are encouraged to come dressed as their favourite community helpers – a doctor, firefighter, police officer, chef, teacher, farmer, or any other profession, on **Wednesday, 24th of May 2023**. We encourage their creativity and enthusiasm to shine through as they share and speak about their chosen community helper.

We would be delighted if parents could join us in your work uniforms, representing your respective professions. Let our young learners see their parents as real-life community heroes. If you are interested in participating in the event, please inform your child's teacher.

- **A Car Wash Day**

An exciting adventure awaits all KG students as they embark on a fantastic journey into the world of cars **on Monday, 22<sup>nd</sup> May 2023**.

Kindly send your little ones their toy cars, properly labelled, to school so that together with their friends, they will explore the wonderful world of automobiles.

Thank you. We appreciate your cooperation and participation in the above.

Kind regards,

EIS Administration
