

Dear parent,

Greetings! The excitement is building! It has been some time since we sent an update about the progress and status of Excel International School. We're excited to keep you abreast of the following developments:

Infrastructural enhancements and progress

The work for the sports facility has already commenced and is under progress for completion well before the start of the school in September this year. The athletic tracks have already been laid out and the ground has been cleared for the artificial turf football field. The asphalt filling has been done for the basketball/volleyball court and the final synthetic top layer is due to be applied soon.

The work for Discovery Forest has also begun in full swing. The ground has been cleared and walkways laid out. The different educational areas have been laid out and the irrigation system for our very own mini-forest is completed. Large trees will be planted soon.

Transfer of Head Teacher and staff

We are also happy to inform you that almost all of our staff have agreed to move to Excel Intl School. The visa/ immigration and approval process for staff has already begun and will continue during the summer break in order to complete all legal requirements before the start of the new academic year.

We are thrilled that Ms. Agnes Nathaniel is moving in a leadership role in Excel Intl School, leading her dedicated team of teachers and staff into an exciting phase of growth and opportunity.

Student enrollment and fees

With 350 existing ZPS students already enrolled for the new academic year in Excel Intl School, we can't wait to welcome them with open arms into our new campus in a safe, secure and loving environment! The discounted fee structure for our ZPS students and approved fee structure for new students is available on our new website as mentioned below.
