

EISCIR-P07/27/09/2022

Dear Parent,

Remarkable!

Thus, the single word that defined the recent investiture ceremony held for our new student leaders! Your support and engagement in such activity are a testament to your commitment to your child's learning and development. Again, congratulations to our student council members and their families.

A few pieces of information we would like to point out:

- **No-Food Policy on Birthday Celebrations**

EIS is instituting a no-food policy for birthdays and other classroom celebrations to prevent food allergy cases and support the overall healthy eating programs implemented by the school. We still encourage you to send your child in coloured attire during their birthday. A chorus of birthday songs shall greet the celebrants either in the assembly or during circle time.

- **School Uniform**

The supplier expressed their apologies for all sorts of hassles experienced during the uniform sale in their recent meeting with the management. They have pledged to address current issues and avoid similar situations in future assignments.

The EIS winter jacket is still in production. In the meantime, students can wear either grey or black-coloured jackets until the school jackets become available.

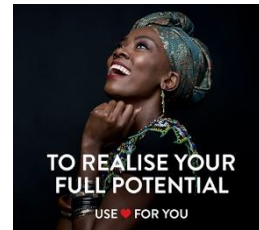

- **Parent-Teacher Association 2022-23**

It is impossible to achieve a wonderful school experience without your help. Thank you for accepting the invitation and volunteering in our PTA for this year. Your support and dedication are greatly appreciated and fundamental for the success of our students. Further, your decision to get involved places you as a positive role model for other parents, encourage the participation of others, and help bring all the elements together to promote an outstanding and rewarding learning experience at EIS!

As we embark on an exciting learning journey together, parents like you will help make EIS a great place for students to learn. Thank you for being here and for all that you do.

- **World Heart Day ("USE HEART FOR EVERY HEART")**

September 29 is World Heart Day. This year's theme centres on how to best use your heart for humanity, for nature, and for you.

To observe the occasion, children may come to school in red-coloured attire. Students will be engaged in activities that promote healthy heart health.

- **Face Mask Wearing**

As announced by the National Emergency Crisis and Disaster Management Authority (NCEMA) yesterday, the UAE has dropped the face mask wearing rules effective on Wednesday, 28.09.2022.

Face mask wearing is optional for all in open and closed places including schools. However, masks will still be required in medical facilities and hospitals, mosques, places of worship, and public transport.

Thank you for your attention and cooperation.

Keep safe.

Kind regards,

EIS Administration
