## To My Child- Messages From Parents

SM Salwa Shazali Mohamed Mahgoub  
11:06 am

The smile has luster and beauty, and expressions that give comfort and pleasure to the face of its owner, and the Prophet, peace and blessings of God be upon him, urged and said, peace and blessings of God be upon him: "Your smile in the face of your brother is charity" and he, peace be upon him, said: "You will not satisfy people with your money, so let them be able to spread your face and good manners." I feel happy when I see the laughter and smiles of my children

# STUDENT LED CONFERENCE

The first student-led conference of the year took place at EIS from 17th - 21st October, where students showcased their work to their parents. It was a great opportunity for both students and parents to see how much hard work their child has put into their education and left feeling proud and inspired by their children.

**RIVER POEM**

The river is a swimmer  
through valley sand hill  
he twist and he turns  
he just cannot be still

**Teacher's Day**

Teachers day is very special occasion for everyone especially for a teacher as a teacher is a person who is responsible for the future of the country. It is a day to honor the teachers who have dedicated their lives to the education of the young generation. It is a day to appreciate the hard work and dedication of the teachers. It is a day to show our love and respect for the teachers. It is a day to celebrate the success of the students. It is a day to remember the impact of the teachers on our lives. It is a day to honor the teachers who have shaped our lives. It is a day to appreciate the hard work and dedication of the teachers. It is a day to show our love and respect for the teachers. It is a day to celebrate the success of the students. It is a day to remember the impact of the teachers on our lives. It is a day to honor the teachers who have shaped our lives.

**My Teacher Day**

We celebrated our teacher day being so happy. We had some nice moments doing some activities together. All our teachers looked so gorgeous and pretty. We also took some pictures to appreciate our class teacher. It was a wonderful day.

# STAFF WELLBEING WEEK

# IN THE HEART OF A SEED

Trees and plants come alongside a plethora of benefits, not only to the environment but also us, as humans. In an effort to teach children to investigate plant a different lens and have the chance to developed an understanding about the conditions required for healthy plant growth and development, complexity of growing and providing a secure food supply; nearly 40 saplings were planted by our dear students at EIS

The students enthusiastically participated in planting the saplings and named their plants with pet names.

It was a delight to see students as they shared their experiences and joy with others.

**PLAN OF ACTION**

Students discovered what plants need to grow as they nurtured their seedlings.

**WHAT DID THEY LEARN?**

- students learned the life cycle of plants.
- developed a solid knowledge foundation to be able to understand the benefits
- and challenges growing systems and the potential impact they may have on our future food systems.
- observed patterns in plants and seasonal changes in the garden.

**REAL-LIFE APPLICATION**

Students learned responsibility by caring for the plants, learned how to communicate and compromise with each other, gained leadership skills, and developed self-confidence. They also developed skills of observation as they watched interactions among plants, soil, and weather.

Dana is delighted to feel her inner happiness as she sees her baby plant 'Ashley' popping out of the garden.
