**Excel star awardees**

**Congratulations!!!! SM Amirul and Zoima Zubair !**

Excel Star award is awarded to students based on their academic performances, weekly spelling marks, weekly mental math scores, their discipline, behaviour in class with students and staffs, completion of assigned tasks, participation in class activities, tardiness, proper uniform and report from the nurse based on their health and hygiene. This award is nominated by the class teachers in discussion with the subject teachers and other members in school to their beloved students.

**Sunshine awardees**

**Congratulations!!!! Mushfiqur Rahman and Mosammat Shaba!**

“Sunshine Award” dedicated from Ms. Agnes to students as part of Students’ Wellbeing program at EIS. This is an initiative to promote positive reinforcement in students to reach higher goals. A student or a group of students, who perform best in their academics, take part in co-curricular activities, have good conduct in behaviour, complete their school tasks /homework on time, wear neat and tidy uniform and maintain good health and hygiene are awarded with the Sunshine award badges. They also get a chance to Spin-O-Wheel to get their awards and treats.

## PARENT-TEACHER ASSOCIATION

First PTA at Excel International School was a proud moment. Our PTA is formed of a faction of dedicated parents and teachers who ensure transparency and communication on all educational needs that are being met by the school.

# CLUBS

**Robotics**

Younger inventors creating a "Wind – Up Car" using different materials like bottle caps, Popsicle

**Creative thinkers**

Safia Walid and Sophia Viel engrossed in making an "Origami Cat."

**Spotlight production**

A Tableau enacted to learn different still scenarios from Shakespearren plays.

**Glee**

Youssef Salah and Ubaidullah, totally involved in singing the song "How far I'll go."

**Bake squad**

Osama at his best, baking "Strawberry Turnovers"

## INTER HOUSE HANDBALL TOURNAMENT FOR BOYS 5-7

## INTER HOUSE HANDBALL TOURNAMENT FOR GIRLS 5-7

## Group Activities

## Interclass presentation on the rise of the K - Pop

Students had to read, analyze and comprehend a page about the rise of K- Pop and present their opinions and viewpoints about the same.

Since the youngsters these days follow K-Pop stars and their music very closely, they totally enjoyed sharing their knowledge about it.

## STUDENT LED CONFERENCE (SLC)

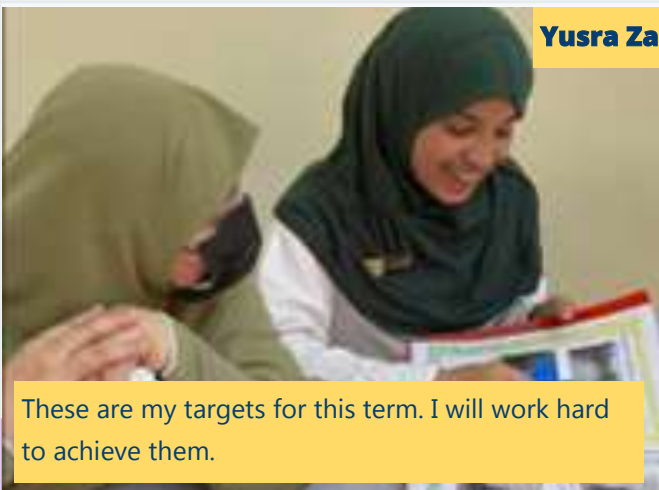

**Syed Shahban**

Dad are you able to see the plant cell through the microscope???

Explaining the volume of an irregular solid.

Our First Student Led Conference (SLC), an overwhelming platform for parents to understand the learning journey where children take accountability of their own learning.

**Yusra Zahid Sharief**

These are my targets for this term. I will work hard to achieve them.

This was our unit on "Friendship." We need to compliment each other. I was curious to listen what she had to say about me!

**Siham Imran**

## English Write-up | Recount Writing

*What really is my difficult choice ever? I hate choices. Whenever choices come in my way, I step out of my way.*

*Once my dad asked me for vacation place my hands were shaking like an old man. In winter and my head was full of dicussion like never before in class.*

*I hope my dad never asks me to make choices.*

**Ubaidullah**  
Gr. 7A

*My most difficult choice was to choose whether I want pizza or Jolibee. Both of them are delicious. Making choices is not my cup of tea. Why won't my mom choose for me? Choosing is like studying. It always finds a way of finding me. In conclusion, I hate making choices. Maybe there should be a magician for making choices.*

**Omar Mohamed**  
Gr. 7A

### The Most Difficult Choice I had to Make

*One of the most difficult choices in my life is choosing food. It was my time to choose my meal.*

*To choose my future between a massive pizza that makes you cry from the flavour, a pizza that take you to your dream world and a burger that you feel that the meat is made of gold and the bread. It's indescribable. It was very hard to choose between two meals that shine like a clourful diamond.*

**Ahmed Elneweshy**  
Gr. 7A

*What actually happened to my family at the starting of Covid 2 years ago? Well, it's time to go back to March 2020, the month in which Covid spread throughout whole world.*

*I can't remember that much but it was bit stressful back then. It was hard to get food at some supermarkets since Covid started. Shops were closed unfortunately because of Covid. It was a horror!!!*

*It was so quiet outside because people were scared of catching the virus.*

*A lot of people lost hope or lost live sbecause of Covid. But on the bright side, people still had hope and trying to do things that prevent Covid from coming.*

**Aimie Nur**  
Gr. 7B

### The Resilience of my family during COVID times

*In March 2020, the first case of COVID was detected. That led the whole world towards disaster.*

*The world had to become flexible while many people became stressed ane hopeless. The people had to become tolerant with each other or they would go into insanity. 3 people of my family got COVID. I was one of them. I had to go into quarantine with my mom and grandma and some people say may that if you had no symptoms, you would get better soon. I was that last one to get cured. It took me a whole term! The first one to get cured was my mom, then my grandma, and I followed suit. I also still had to do the exams too.*

*So in the future, always take cate of yourself and your family. Do not take things for granted.*

**Sophie Viel**  
Gr. 7B

*Resilience, what a word! To never give up and try and try and try. Covid had affected my family tremendously, and let me tell you how.*

*Back in 2021 summer break, I was staying in my cousin's house for the week. Soon, I got the news of my oldest brother having a fever. I told them to take a PCR test as a joke but they actually took it and the result came out positive! My parents decided to isolate my brother in his room. Later on, my dad told me to stay in my cousin's house until he was okay. But little did he know.*

*A few days later, my mom and the other brother caught the virus. My mother, my dear mother was affected a lot in this time. She had to be admitted to the hospital for 2 days! As for my dad, he was healthy and wasn't affected. Alhamdulillah! And all this time, I was still in my cousin's house worried sick!*

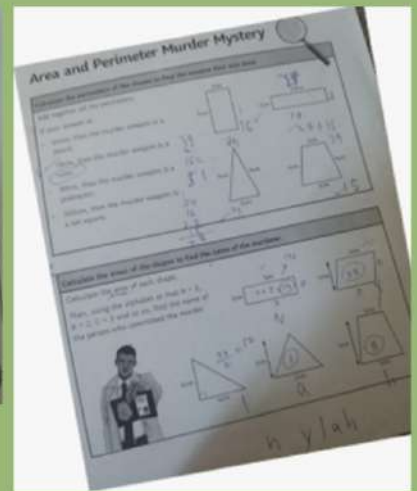

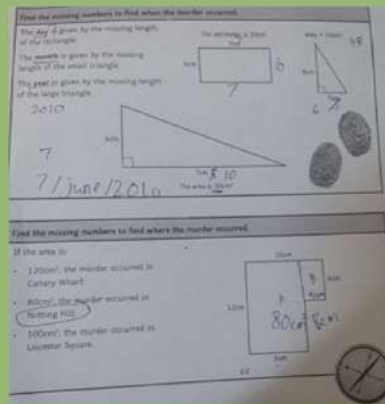

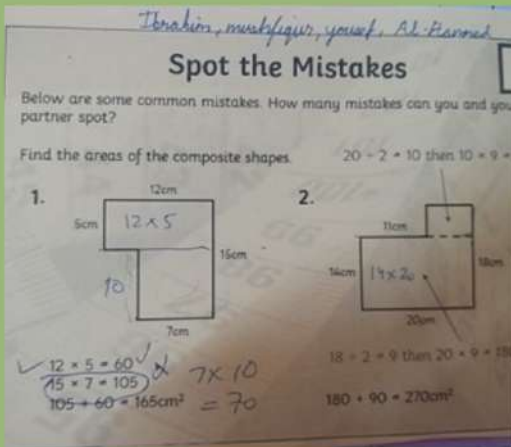

*I had to stay there a whole month before everyone recovered and I went back. A couple of days later, my mom wanted to go to India because she thought since we all got Covid already, we would have nothing to worry about.*

*The year before, 2020 everyone was in quarantine and everything was in lockdown. During this time, my parents had to unfortunately close down one of their nurseries!*

*Covid has actually taught us all a valuable lesson. Patience and not taking everything for granted. We have learnt a lot from Covid and I'm grateful for it too! So be patient, never give up and be kind to everyone. You never know what they're going through.*

**Yusra Zahid**  
Gr. 7B

## Math and Science Class Activity

Students used the concept of area and perimeter to solve a mystery. The first task was to find the weapon which was ruler according to total perimeter. The second task was to find the name according to area. The third clue was day, month and year by finding missing lengths.

## To investigate how different surfaces affects frictional forces

The girls were assigned a group task to go around the school to investigate how different surfaces affect frictional forces. Students used school bag in different surfaces like grass, sand and metal to find out the frictional forces and data were recorded.

## AL - MAWLID AL NABAWI (Prophet Muhammad Birthday) Assembly

Students portrayed the importance and teachings of Prophet Muhammad on the occasion of Al – Mawlid Nabawi (Prophet Muhammad’s Birthday).

## World Smile Day Assembly

World Smile Day, a day dedicated to the act of kindness. The day aims was to spread Smiles across the world and spread positivity, cheer and happiness. Students performed a skit that exhibited act of kindness in different scenarios that brought a smile in everyone's face.
