

Dear Parents,

**Admissions for AY 2023-24** are now open. Online registration is ongoing for all grades (KG - Grade 8). Please click on the link <http://eisalain.com/admissions/admission-procedure> to register.

Here are a few of the things that get us excited about the next academic year:

#### **New Grade Level**

As part of the school's progressive expansion, we are inviting applications for Grade 8. Two additional classes for Grade 8, one each for boys and girls, will open in the next academic year.

#### **Swimming Pool**

As promised and as part of our enhanced infrastructure strategy, we are working hard to obtain approvals and finalize plans for the construction of additional facilities for our students, like swimming pool, indoor auditorium and a building extension with extra classrooms, custom labs and multipurpose halls. The construction will be done in a phased manner with the first phase likely to start as soon as possible. These additional facilities will be immensely beneficial to promote a sporting, cultural and scientific exposure for the students enhancing their physical and mental health.

#### **Fees Discount**

The school fees include textbooks. To learn more about our fee structure including sibling discounts, please visit the school website at <http://eisalain.com/admissions/fees>.

#### **Curiosity Labs Experience**

Students of Grades 5 – 8 have access to a variety of Science Labs where our enthusiastic, curious, and young scientists can explore, probe and experiment to unravel the truths behind the facts of life. Our laboratories are well-equipped with accurate digital measuring instruments, kits, experimental gadgets, models, charts and other apparatus for learning Physics, Chemistry and Biology. The students can perform a wide array of experiments to strengthen their scientific, investigative, reasoning and social skills with the assistance of competent teachers and lab-technicians.

#### **Discovery Forest Project Continues**

The Discovery Forest is a learning ground for our Kindergarten – Grade 4 students. As the beautiful trees and plants grow, additional apparatus like the 'Sprinkler System' that mimics rainfall will provide a unique and fun environment for the children, where they will recognize the importance of caring for the environment while exploring the outdoors.

#### **Physical Education and Extra-curricular Programs**

- **School Clubs**

Ten (10) clubs in EIS provide engaging activities for students to think, plan and self-act. Clubs are an exciting platform for children to learn and explore things, whether fostering their interest or learning a new skill, in the company of their friends. Learn more about our clubs on our website.

- **Scouts**

This character-based program helps prepare students to be future leaders through hands-on activities and learning experiences. The scouting program lets children have a lifelong appreciation for self-improvement, community involvement, and the outdoors.

**School Transport New Offering**

School Transport Services will cover new areas such as **Zakher** and **Khalidiya** in the next academic year. This offering is EIS' continual commitment to providing students with a safe and timely journey to and from school.

Currently-enrolled students must submit the registration fee of AED 500 **before the deadline on 28th April 2023 to secure their continued place** at EIS. The same may be paid online through the Zenda app, in person at the school accounts office or via bank wire transfer.

**Important Note: This deposit is non-refundable** should a student not take up the confirmed place in September.

Kindly note that the Abu Dhabi Department of Education and Knowledge (Adek) issues the guidelines regarding the admission and re-enrollment processes for private schools in Abu Dhabi. Students unable to be registered with the ministry due to missing required documentation, or students with an outstanding fee balance, will not be able to re-enrol for the next academic year.

For further details regarding re-enrollment or questions regarding the process, please call our school office at 03-7805025.

Thank you.
