

EISCIR-P47/10/03/2023

Dear Parent,

The bond between a mother and her child is inexplicable. Excel International School (EIS) will host a special **Mother's Day** program on **Tuesday, March 21, 2023**, to celebrate the warmth and purity of the bond that is beyond any other relationship in the world.

We are inviting a mother and child tandem to showcase their talents and join the '**Excel Duo: Skills and Thrills**' competition. To participate in the contest, please register at this link <https://forms.gle/aAKds4mtyTk1CWin9>.

A tight hug and sweet kiss with a handwritten note are the best gifts a mom can ever get from her child. Handcrafted cards will be created by the students for their mothers. What more could have made Mother's Day more special than this?

Kindly join us as we salute our EIS mothers. It will be a heart-warming event to enjoy the love of your child through various shared activities.

Further, please take note of the following information:

### **Holy Month of Ramadan**
