## INTER SCHOOL ART & DEBATE COMPETITION

Al Ain Juniors School conducted an **Inter-School Art and Debate competition** which is a collaboration of literature and art in line with CBSE's vision of Art Integrated Education. Students from Excel International School participated in the competition and won trophies in both Art and Debate.

**DEBATE – 3rd Position**  
Mushfiqur Rahman,  
Nafisa Jannath, &  
Fathima Shafqat

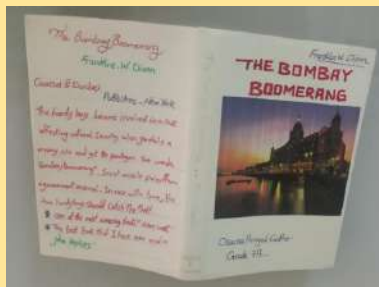

**ART COMPETITION**  
Poetry in Art  
Aimie Nur & Farah Ismat

Abdul Rahman Zohair, Mosammat Shaba &  
Yusra Zahid

## WINTER ASSIGNMENT

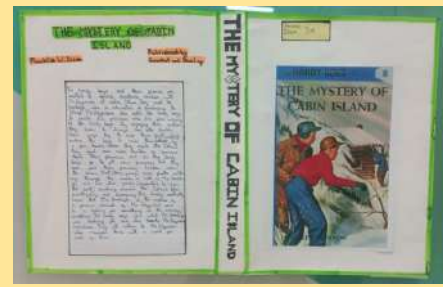

**WARM-UP WITH A BOOK** Winter Assignment required students to read a book and design a book jacket for it. The creative ideas of the students were amazingly innovative and their works were displayed on boards and hallways. They will become permanent exhibits in the school library too.

## A New Year Story

I was simply passing time as usual which includes digging in trashcans at the back of restaurants, searching for another piece of nourishment to completely fuel the pit of emptiness in my stomach. When suddenly I heard a faint sound coming from a distance that was decreasing every second. My ears started to perk up in curiosity and confusion but went back to normal as I spotted a car pass by, tires screeching loud enough to leave a new scoff, speakers at full volume playing an obnoxious sound, "I thought these humans ring in the new year with confetti, streamers and a countdown but, I never thought these creatures with working limbs and brain are onto playing absurd music as their merry - making, how pathetic," thought to myself.

As much as I wanted to shrug off what I had just witnessed, I couldn't digest the feeling of curiosity that was slovenly building up inside my tiny brain, travelling through my compressed stubby limbs, into every single vein in my small body, building up so much pressure making me think that I might become one of the many fireworks that will zoom into the air at the stroke of midnight. While I was lost in thought, the distant chanting progressively started to get louder which triggered my limbs to run without hesitation, running from street to street and crossing block to block and that's when I saw it, New York Times Square, the busiest street on New Year's Eve. Wanting to know more, I ran in between the legs of all the people on my way to make it to the front, every second full of fear of being stepped on by the tipsy people with their hideous fashion sense and drooping eyes, overflowing with sleep. After an unpleasant run between thousands of people, I reached the front, watching as the clock was ticking and the ball slowly getting closer. There were 20 seconds left and the ball abruptly came to a stop, and a sudden gush of groans and disappointment filled the air. The clock continued to tick until it reached 10 seconds. Many people started to leave and some even in rage but it all stopped when a flock of pigeons flew by, all of them hitting the ball in sync and falling on the ground, face first on to the rock hard floor but, it was a miracle. The ball then started dropping to its needed height and the clock struck twelve. I guess everything worked out after all because the crowd then erupted into screams of thrill as they celebrated the New Year with someone by their side.

Turning around to leave, I spotted woman that looked awfully familiar. Its like I knew her, wait I do know her, she's my owner! I rushed towards her with my tail wagging like never before clinging onto her calves once I reached. She immediately recognized me and picked me up with a smile on her face and spun around with joy. That night I slept in the comfort of my home and I couldn't have asked for a better way to welcome the New Year.

- Fatima Shafqat

## CLAY MODELLING

A medium that promotes creativity, develops children's imagination and their fine motor skills.

Ahmed Elnewishy  
Ahmed Hosam

Ahmed Saad

Gloria Sunnysamuel  
Malak Salah  
Subaita Sarwar

Display of students' creative, vibrant and colourful clay art on the topic "Under the Sea."

Students engrossed in action to compete with each other in the Clay Modelling competition.

Students meticulously preparing to argue logically in a debate during their English class, where they had to compete with their own fellow students.

### EQUATION MAZE

By navigating their way through a maze in Math, students use their spatial skills and ability to visually map ahead to see if the path they are on is right or no. Students used the concept of one and two step linear equations in a maze to find the exit.

Speed, accuracy, and a ton of fun all rolled into this winter inequality activity. Groups of 4 and 3 students worked together to answer inequality problems.

## BIOLOGY

Away from our regular classroom routines, we smart microbiologist explored different kinds of microorganisms in our "Curiosity Lab". Biology is fun!

Ahmed Mohammed Saad

Julia Hany & Malak Salah

Justine Gabrielle & Farah Ismat – 7B

Anbar Ajaz

"Will the mold grow in a toasted bread or on a wet bread?" Our young minds are curious to investigate.

Fatima Shafqat, Subaita Sarwar, Malak Salah & Maya Moataz

Leigh Summer, Siham Imran, Misha Rafiq, Zoima Zubair & Nafisa Jannath

Sophia Bico, Anbar Ajaz, Aimie Nur & Yusra Zahid

Youssef Ashraf, Omar Mohammed, Mushfiqur Rahman & Ahmed Hosam

Our enthusiastic students confidently presenting their research findings on the topic "How microorganisms are used in food industry?"

Momen Ibrahim, Rayan Badawieh & Ahmed Elnewshy

Curiosity and discoveries are related terms, our curiosity leads to a new discovery. Students investigated and observed the lactobacillus bacteria that changes Milk to Curd.

Justine Gabrielle, Sophia Bico, Leigh Summer, Farah Ismat, Isel Moustafa & Maya Moataz

Aamina Zaheer, Yusra Zahid, Nafisa Jannath, Joudi Darwish

## SOCIAL STUDIES

Students collaborate in a fun-filled activity by designing an itinerary on their "Favourite Destination". Exploring different geographical wonders.

## PHYSICS - SPEED

An outdoor group activity on our school grounds, to calculate the speed and time taken by their partner to complete 50 meters running race.

Students creatively used different coloured threads to learn about atoms, elements and compounds.

## AWARDS

### Academic Excellence

*"Excellence is not being the best; it is doing your best."*

**Fatimah Shafqat**

### Best Cursive Handwriting

*Handwriting determines your dream, how beautiful your dream is, so is your handwriting.*

Mushfiqur Rahman, Ahmed Mohammed Saad & Syed Shahban

Siham Imran & Misha Rafiq

## Congratulation Class Prefects & Assistant Prefects!

**Omar Mohammed**  
Class Prefect

**Yousef Salah**  
Assistant Prefect

**Sophia Viel Bico**  
Class Prefect

**Anbar Ajaz**  
Assistant Prefect

## EIS RUNDURANCE

EIS organized a MARATHON for students, parents and teachers to recognize the importance of heart health and overall fitness. This activity supports the Eat Right & Get Active Program of the Department of Health, and the Abu Dhabi Public Health Center, which runs among schools throughout the academic year.

## Excel Super Star of the Month

**Congratulation!**

**Ahmed Elnewshy & Safia Wahid**

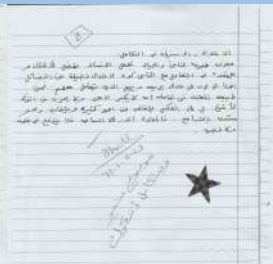

YOU EARNED IT

### The inception of UAE's National Rail Network

By Yusra Zahid

Built to the highest international standards, Etihad Rails state-of-the-art will act as a catalyst for economic growth and sustained social development.

Ethad Rail's transport solutions mean significant benefits for businesses, allowing for more productive use of time and resources, reduced costs, and more efficient asset management.

A nation known for its love of cars, as well as its strategic ports and airports, the UAE is betting big on its first national rail network. The 1,200-kilometer (746-mile) artery will connect the Gulf of Oman to the Persian Gulf, down through the emirates, into Abu Dhabi's interior and to Ghufeifat on the border of Saudi Arabia, a key step in a long-mooted rail network crossing the Arabian Peninsula.

The forthcoming passenger train is building up steam in the UAE and it's going to make travel between the emirates faster, greener and more convenient. Sharjah and Ras Al Khaimah are now connected to the main line and the exciting new service is set to transport passengers across the UAE by 2030! Its transport solutions mean significant benefits for businesses, allowing for more productive use of time and resources, reduced costs, and more efficient asset management.

## ARABIC WRITE-UPS

Siham

Joudi Jihad

**Great Job!**

## OPEN HOUSE

An interaction and discussion between the teachers and parents for the development of their child.

Omar Mohammed

Aimie Nur

Safia Walid

Momen Ibrahim

Zoima Zubair

Joudi Darwish

## STUDENT COUNCIL MEETING

Student council members involved in a discussion on their upcoming Sports Day Event "Brilliance Unchallenged."

## EDITOR IN ACTION
